KS Engineers, P.C.

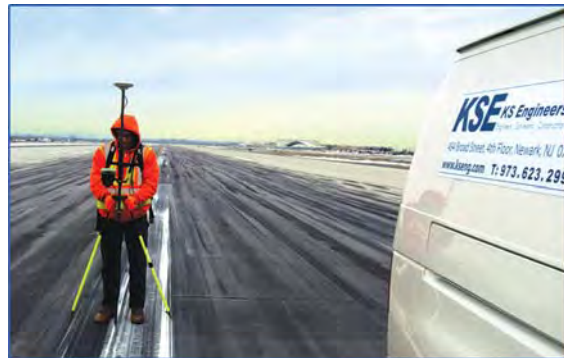

Aviation

KS Engineers, P.C. (**KSE**) provides specialized airport planning, engineering, design, facilities assessment and construction management services to commercial service and general aviation airports. Headquartered in Newark, NJ, with branch offices in the Northeast, **KSE** has been serving the aviation industry for 20 years providing services to both landside and airside improvements for both private and public sector clients.

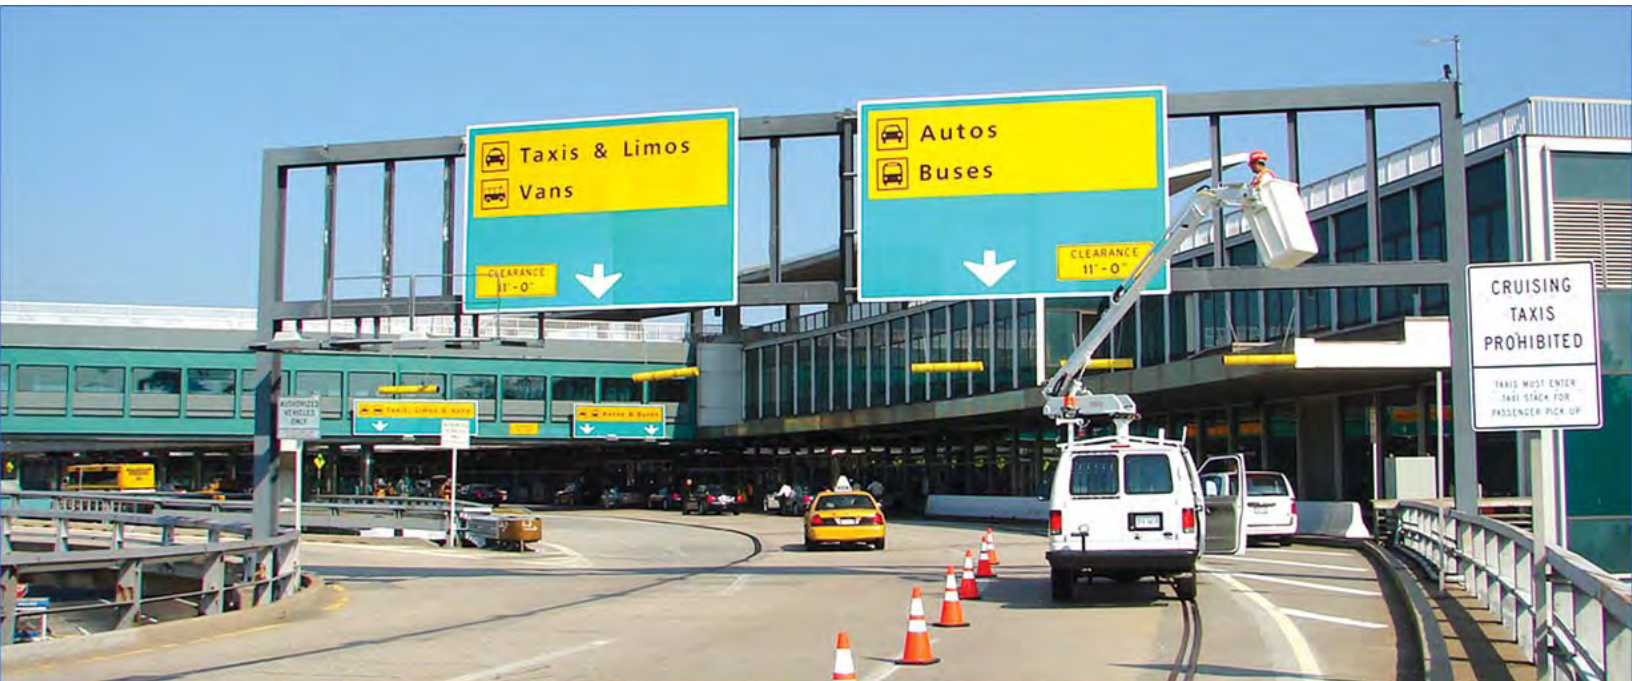

KSE has extensive experience in airport projects including terminals and parking facilities; access roads and light rail connectors; rail access infrastructure including guideways, stations, terminal interface and intermodal connections; control towers; runways, taxiways and aprons; airfield lighting and navigational aids; airfield storm drainage; signage and information systems; and landscape design.
