Facilities/Buildings

Grand Central Terminal Structural Evaluation & Rehabilitation Design [MTA]

Today, the management and maintenance of existing facilities is just as important as the design and construction of new ones. KS Engineers, P.C. (**KSE**) recognizes this need and approaches these projects with a complete understanding and concern for combining economical feasibility with basic efficiency.

With nearly 200 talented professionals and more than more than 20 years of experience, **KSE** approaches each project as a unique opportunity to make a difference in the community. With projects spanning various types of buildings—K-12, higher education, science and technology, municipal, judicial, recreational and transportation—**KSE** has the right personnel and knowledge to meet the goals of our clients and the needs of those utilizing the facilities.
