HARRY BAKER JOINS KS ENGINEERS AS VICE PRESIDENT

NEWARK, NJ, February 14, 2008 -- Kamal Shahid, P.E., the Founder and Principal of KS Engineers, P.C (KSE) announced that the firm has made an important addition to its executive management team.

“KSE is pleased to welcome Harry Baker to KS Engineers as Vice President,” stated Mr. Shahid. “Harry will be instrumental in developing **KSE’s** presence in the traffic engineering and parking design sectors as we continue to grow our offices in New Jersey, New York and Pennsylvania.”

Mr. Baker brings more than 32 years of experience as a civil/traffic engineer to **KSE**. His diverse experience includes the preparation of traffic impact, parking and pedestrian studies, master planning, feasibility studies, roadway, intersection and traffic signal design, site development, and parking lot/garage design. Prior to joining KSE, Mr. Baker was Vice President of the Traffic Engineering Department at El Taller Colaborativo. As an active member in the Institute of Transportation Engineering and the National Parking Association, he served on the Board of Governors of the Government and Institutional Branch of the National Parking Association.

“Mr. Baker’s experience leading traffic transportation and parking design projects for major public and private agencies throughout the Tri-State area makes him a valuable asset to KSE,”

Mr. Shahid said. “Harry has the perfect background to lead KSE’s growth in the traffic and parking sectors.”

Founded in 1991, KSE is a mid-sized, multi-disciplinary MBE/SBE/DBE providing civil and structural engineering, land surveying, landscape architecture and construction management and support services in New Jersey, New York and Pennsylvania. With a staff of more than 95 full-time professionals including 16 licensed engineers, 2 multi-state licensed land surveyors and more than 40 construction management personnel, KSE has provided essential engineering services for public and private entities throughout the region.
